**Subject:** FW: Radiological Information Relating to HPB Gas Bypass Plant

---

**Attachments:** Initial Assessment of Activity Released into the Radiation Controlled Area.doc

---

[REDACTED]  
 I have deleted the email attachment from the internal dosimetry service Harwell which contained the reports as password protected.

The reports are on the way to you as FAX copies.  
 Regards.

**Subject:** Radiological Information Relating to HPB Gas Bypass Plant  
**Importance:** High

[REDACTED] has had to leave site today but he asked me to review the information below and forward it to you.  
 I am pleased that the internal dosimetry service has included an explanation regarding the urine results.  
 Note the password for opening each assessment report - [REDACTED]  
 Regards.

As requested, please see information attached:

1) Committed Effective Dose (CED) Assessment

The assessments for the individuals working in the Gas By-Pass Plant at the time of the event are attached (password to open the documents is [REDACTED]). [REDACTED]

zero."

Summary of CED

\* [REDACTED]

(Original password protected file deleted. [REDACTED])

2) Skin Dose Assessment

Assessments of [REDACTED] personnel were required following the event. The result of the skin dose assessments are recorded below:

[REDACTED]

The annual limit for skin dose is 500,000 micro-Seiverts.

3) Activity Assessment

The initial assessment of activity released from the Gas By-pass Plant is attached. Further analysis is being carried out to determine the radionuclide content of material collected from the plant.
